GLADS GLADS GLADS

We have lots of fine bulbs growing and blooming at this time but due to the loss of our large barn where we store most of the bulbs we are listing some of the outstanding varieties at very reduced prices for early fall delivery because even though we are building right away we cannot replace the bulb storage space to what we had till next year. So here you are folks, take advantage of these fine new varieties. 25% down will hold order till shipment is desired. We would like to be able to send these bulbs to you the first part of November and up to December 15 and these prices will be void after that time. Our new catalog listing all the varieties we grow and many of the outstanding Holland novelties will be sent out early in 1949.

We are grouping them as to prices and just giving the main color. For further description refer to our last year's catalog please.
